Summary

ANU Actuarial Studies and Quantitative Finance graduate. I'm a Google Cloud Certified - Professional Cloud Developer, based in Sydney with a year of experience building Go services on GCP.

Experience

AV/IT Salesperson | Hornsby Supavit Pty Ltd

Apr 2026 – Present

- Created 3 analytics dashboards in Excel from POS data to assist the proprietor with retail operations.
- Ranked top 3 of 10 sales staff by gross profit, building strong client communication skills and translating customer frustrations into requirements.

Software Engineer | [Union Mate](#)

Feb 2025 – Jan 2026

- Developed 5 cloud run native microservices, utilising Go's lightweight concurrency and low memory footprint to minimise P99 and GiB-seconds.
- Modernised deployment security by replacing long-lived service account keys with OIDC federation.
- Built the document ingestion pipeline for a SaaS prototype. Benchmarked chunking strategies and embedding models.

Senior Resident | The Australian National University

Jan 2023 – Dec 2023

- Managed escalations and incident response for a residential cohort of 26.
- Earned two scholarships (\$16,000 in 2023; \$4,000 in 2020) for contributions to collegiate life and academic excellence.

Administrative Support Assistant | Singapore Armed Forces

Jul 2020 – May 2022

- Managed scheduling and end-to-end logistics for officer training programs and service medal ceremonies, ensuring operational readiness and adherence to protocol.

Projects

[Real-time Waze Alert Scraper and Analytics Dashboard](#) | Go, Terraform

- Fully cloud-native on GCP, with all infrastructure defined in Terraform.
- Built a tiered storage layer using Firestore and GCS, reducing NoSQL read operations by up to 86% per request.

[WhyHireLeong.com](#) | Go, TypeScript, Next.js

- Built a retrieval-augmented generation (RAG) chatbot on a fine-tuned Gemini model, grounding responses in a personal document corpus.
